

Contract Holder: DYNACO USA, Inc.
Contract Number: GS-07F-0063U

DYNACO USA provides high performance door solutions to its GSA Customers at the best possible pricing!

The DYNACO Difference

SAVINGS – with a virtually perfect door seal, high speed openings & closings, and insulated door curtains, DYNACO Doors result in thousands of dollars of ENERGY SAVINGS per year.

SAFETY – with no bottom bar and a 22 year record of no door-related injuries, a DYNACO door is the Safest Choice.

SECURITY – our telescoping Armor Door offers unparalleled security with a double walled, interlocked steel curtain; an automatic lock-down, unlocking system; and superior dependability.

SPEED – faster cycle times (8 ft/sec) result in higher productivity and energy savings.

SUPER DEPENDABILITY – DYNACO'S simple, yet unique push/pull design (rolling doors) and telescoping operation (Armor Doors) provide a low cost of ownership. DYNACO Doors are proven performers for 1,000,000+ opening cycles.

DYNACO USA Offers 3 Unique Door Models on Our GSA Contract

Choose Armor Door for high security, high cycle openings. Handles extreme pressure. Available with a 3 hour fire door label.

SlimLine doors are ideal for high speed interior openings. Print your organization's logo on the door.

Power M2 doors are ideal for exterior and interior openings. Breakaway and self-reinsertion capabilities.

The following federal organizations have already put their trust in DYNACO Doors: US Postal Service, US Mint, Idaho National Lab, Oak Ridge National Lab, Los Alamos National Lab, US Army, US Navy, US Coast Guard, Federal Reserve Banks, Federal Court Houses, Dept. of Homeland Security, and many others.

DYNACO Doors are installed in thousands of other public buildings: police & fire departments, transit authorities, universities, airports, water departments, waste water treatment facilities, jails & correction facilities, hospitals, power plants, city buildings, court houses, parking facilities, and many others.
